Tanuku, Andhra Pradesh, India | Open to relocate: Bengaluru · Hyderabad · Chennai · Pune · Mumbai · Gujarat · Kerala

PROFESSIONAL SUMMARY

B.Tech (AI & ML) 2026 graduate who builds and ships applied AI systems. Co-built **OmniAI Cloud**, a multi-modal GenAI platform routing inputs across nine pretrained models (**95%** detection accuracy, latency **~86 s to 1.8 s**), **published** at an international conference. Oracle-certified in AI Foundations and AI Vector Search.

TECHNICAL SKILLS

AI / ML: Python, PyTorch, Hugging Face Transformers, LLMs, RAG, prompt engineering, CNNs, explainable AI

Vision & NLP: YOLOv8/v11, ResNet50, BLIP, OpenCV, PaddleOCR, spaCy, NLLB-200, FLAN-T5, DistilBERT

Backend & APIs: Python, FastAPI, Flask, Django, REST APIs, JSON, Streamlit, PyQt6

Cloud & Tools: Microsoft Azure, Oracle Cloud (OCI), Git/GitHub, Linux, Docker (basics), Postman, Power BI

CS Foundations: Data structures & algorithms, OOP, C, debugging, secure coding practices

AI / ML EXPERIENCE

GenAI Intern | Huebits Tech Pvt. Ltd.

Jan 2026 – Mar 2026

- Co-built **OmniAI Cloud** (team of four), a multi-modal GenAI platform whose **Auto-Selector agent** routes image, document and text inputs across **nine pretrained models** (vision, OCR, NLP, translation).
- Lifted species-detection accuracy from 68–85% to **95%** by fusing **ResNet50 with YOLOv8** to fix coarse labels.
- Cut first-request latency from **~86 s to 1.8 s** with model pre-loading; routing cut up to **76%** of needless model runs.
- Designed the **explainability layer** showing which models ran and why; work **published** at an international conference.
- Developed the **FastAPI** backend and **Streamlit** front end, and deployed the platform on **Microsoft Azure**.
- Co-ran model evaluation on curated datasets (**100 images across 30+ species, 50 text and scanned PDFs, 200 multilingual text samples**) against single-model and ensemble baselines.
- Platform adds **multilingual** detection and translation (LangDetect, **NLLB-200**) and document intelligence: PDF extraction, **OCR fallback** and summarisation.

AI/ML Intern | Cothon Solutions (AICTE-approved) (Virtual)

May 2025 – Jul 2025

- Built a **Legal Contract Analyzer** (spaCy, Legal-BERT) extracting key clauses and entities from PDF/DOCX contracts.

AI Intern (APSCHE, 120 hrs) & AI/Deep Learning Intern | AIMER Society

May 2024 – 2026

- Delivered AI mini-projects: **VQA** (Hugging Face), **YOLOv8/v11** object detection and a **Power BI** classification dashboard.
- Compared **ResNet, DenseNet and VGGNet** models on fruit classification and built CNN and RNN comparison models.
- Built a rule-driven talking bot (NLP, OpenCV) and a **Telegram bot** powered by a weather API.

ADDITIONAL EXPERIENCE

Cybersecurity Analyst Intern | Skills Uprise Spectranox Pvt. Ltd. (Paid)

Feb 2026 – Aug 2026

- Built live **SOC dashboards** for DVWA and Mutillidae with **real-time email alerts** on attack activity.
- Designed **12+ bug-hunting labs** and trained **50+ students** in secure vs. insecure web development (PHP, SQL, JS).

PROJECTS

In progress: Private RAG Assistant & LLM Security Lab | Python, embeddings, vector store, local LLM, FastAPI

- Local **RAG** assistant with source citations, plus an LLM test harness for **prompt injection** and data-leakage risks.

Log-Based IDS/IPS Prevention System | Python, Splunk, SIEM correlation

- Built a detection pipeline with log normalisation, **detection rules** (SQLi, XSS, brute force, IDOR, credential stuffing), **risk scoring**, IOC correlation and real-time alerting.

EDUCATION

B.Tech, AI & Machine Learning – SASI Institute of Technology & Engineering | **CGPA 8.0/10**, no backlogs

2022 – 2026

Intermediate (MPC) – Narayana Junior College: **81.4%** | SSC – Bhashyam Public School: **98.0%**

2022 | 2020

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Certified:** OCI 2025 AI Foundations Associate · AI Vector Search Professional (both valid to Oct 2027)
- Published paper:** OmniAI Cloud – International Conference on Cyber and AI Security (MITS × IIIC × IEEE)
- CEH v13 track** (6-month specialisation, Skills Uprise) · **SOC with AI L2/L3** training (Splunk, Sentinel, YARA, MISP)
- Two **Letters of Recommendation** (Supraja Technologies) and a **reference letter** (Cothon Solutions)
- TryHackMe AI Security L1** – selected in the AI Security race; exam voucher and 3 months of premium access awarded
- Wrote the **Design & Analysis of Algorithms** notes that the whole class ended up using
