

PODUGU BALA VEERA VENKATA SUNIL

Software Engineer (Python) | FastAPI · Django · REST APIs · SQL | Security-Aware

bvvsedu@gmail.com | linkedin.com/in/bala-veera-venkata-sunil-podugu | github.com/MBS-23

Tanuku, Andhra Pradesh, India | Open to relocate: Bengaluru · Hyderabad · Chennai · Pune · Mumbai · Gujarat · Kerala

PROFESSIONAL SUMMARY

B.Tech (AI & ML) 2026 graduate who builds end-to-end applications: a **FastAPI + Streamlit** AI platform deployed on **Azure** (latency cut from ~86 s to 1.8 s), a **multithreaded PyQt6** desktop tool and PHP/MySQL web apps. Security-trained (OWASP Top 10) with 6 months of paid internship experience; strong in DSA and OOP.

TECHNICAL SKILLS

Backend & APIs: Python, FastAPI, Flask, Django, REST APIs, JSON, Streamlit, PyQt6

Web & Databases: HTML, CSS, JavaScript, PHP, SQL, MySQL, MongoDB; working knowledge of React, Node.js

CS Foundations: Data structures & algorithms, OOP, C, debugging, secure coding practices

Cloud & Tools: Microsoft Azure, Oracle Cloud (OCI), Git/GitHub, Linux, Docker (basics), Postman, Power BI

AI / ML: Python, PyTorch, Hugging Face Transformers, LLMs, RAG, prompt engineering, CNNs, explainable AI

Developer Tools: VS Code, XAMPP, phpMyAdmin, VirtualBox/VMware, Google Colab, PowerShell, Linux command line

EXPERIENCE

Cybersecurity Analyst Intern | Skills Uprise Spectranox Pvt. Ltd. (Paid) Feb 2026 – Aug 2026

- Built secure and insecure versions of the same **PHP/MySQL** features and debugged trainee code end to end.
- Ran authorised security tests on client web apps (client names withheld); reported findings and guided fixes.
- Designed **12+ bug-hunting labs** and trained **50+ students** in secure vs. insecure web development (PHP, SQL, JS).

GenAI Intern | Huebits Tech Pvt. Ltd.

Jan 2026 – Mar 2026

- Co-built **OmniAI Cloud** (team of four), a multi-modal GenAI platform whose **Auto-Selector agent** routes image, document and text inputs across **nine pretrained models** (vision, OCR, NLP, translation).
- Built **REST endpoints** for file upload, input classification (magic bytes, metadata) and structured JSON responses.
- Cut first-request latency from **~86 s to 1.8 s** with model pre-loading; routing cut up to **76%** of needless model runs.
- Developed the **FastAPI** backend and **Streamlit** front end, and deployed the platform on **Microsoft Azure**.

Cybersecurity Intern – Web App VAPT & Application Security | Supraja Technologies

May 2025 – 2026

- Tested DVWA for **OWASP Top 10** flaws (SQLi, HTML/iframe injection, LFI) with **Burp Suite, Nmap, Nessus, Acunetix**.
- Selected for the advanced track as a top performer (~120 participants): **PortSwigger Academy** labs, **API security testing** and a **Splunk log IDS/IPS** capstone; found a **real-world broken-link-hijacking** flaw in OSINT.

AI/ML Intern | Cothon Solutions (AICTE-approved) (Virtual)

May 2025 – Jul 2025

- Built a **Legal Contract Analyzer** (spaCy, Legal-BERT) extracting key clauses and entities from PDF/DOCX contracts.

AI Intern (APSCHE, 120 hrs) & AI/Deep Learning Intern | AIMER Society

May 2024 – 2026

- Delivered AI mini-projects: **VQA** (Hugging Face), **YOLOv8/v11** object detection and a **Power BI** classification dashboard.

PROJECTS

ShadowPortX – Offensive & Defensive Port Scanner | Python, PyQt6, multithreading, PyInstaller

- Built a **multithreaded** port scanner with TCP, UDP, SYN and version scans, built-in **WHOIS/DNS intelligence** and one-click **PDF/CSV/JSON** reporting; packaged as a standalone Windows app.
- Five-tab **PyQt6** interface (Dashboard, Intelligence, Settings, Reports, Project Info) with an in-app report viewer, filtering and preview, and .qss themes.

Personal Portfolio Web App | React 19, TypeScript, Vite, Tailwind CSS, Three.js

- Built a typed React SPA with a **lazy-loaded Three.js globe**, keyboard navigation and reduced-motion support.
- Code-split the 3D globe so it loads only on large screens, keeping the main bundle **~126 KB gzipped**; all content is driven from typed data modules.

EDUCATION

B.Tech, AI & Machine Learning – SASI Institute of Technology & Engineering | **CGPA 8.0/10**, no backlogs

2022 – 2026

Intermediate (MPC) – Narayana Junior College: **81.4%** | SSC – Bhashyam Public School: **98.0%**

2022 | 2020

CERTIFICATIONS & ACHIEVEMENTS

- Published paper:** OmniAI Cloud – International Conference on Cyber and AI Security (MITS × IIIC × IEEE)
- Oracle Certified:** OCI 2025 AI Foundations Associate · AI Vector Search Professional (both valid to Oct 2027)
- CEH v13 track** (6-month specialisation, Skills Uprise) · **SOC with AI L2/L3** training (Splunk, Sentinel, YARA, MISP)
- Wrote the **Design & Analysis of Algorithms** notes that the whole class ended up using
